QC-Mobile	3
QC-Collect	3
EDL	3
QC-Alert	3
PLS.....	3
DCS	3
Landing Page	3

QC-CALC Real-Time

1. Problems Resolved in 5.1.18

- **General** - Updated panel configuration storage so users in multi-user environments can retain their own panel arrangements. (363037)
- **Exporting** - Improved the Excel 97/2000/2002 export, so an error is not generated when Trace Fields are included in the output. (365461)
- **Exporting** - Updated exports to Excel 2007 and later, so Trace Field labels no longer include extra numeric suffixes. (365463)
- **Filtering** - The “Number of Failures” option within Record Filters now applies the bonus values to True Position characteristics when filtering records. (383121)
- **Reporting** - Corrected Plot Reports so that values on the specification limits are not reported as out of specification. (383629)
- **General** - Clarified the server license limit message to better explain when the maximum number of users or sessions is reached. (388583)

2. Driver Updates in 5.1.18

- **Micro-Vu InSpec for Windows** - Corrected errors in the Micro-Vu InSpec for Windows driver. (316769)

- **Keyence IM Series (CSV files)** - Fixed the Keyence IM Series (CSV file) driver so unrelated parts are separate during data collection. (362889)
- **Renishaw Modus (RES files)** - Updated the Modus RES driver to detect 3DTruePosition labels and automatically apply true position relationships. (364739)
- **PC-DMIS (GD&T) 2012+ XML Statistics** - Updated the PC-DMIS GD&T driver so all supported features are collected from XML output. (377224)
- **Q-DAS Format** - Fixed the **Tools > Options > Data Collection > Data Source Information > All Source File(s) are in Q-DAS format - DFQ file driver** so the first measurement of a characteristic is correctly imported. (377247)
- **PC-DMIS (GD&T) 2012+ XML Statistics** - Improved the PC-DMIS (GD&T) 2012+ XML Statistics driver to better handle a looping program. (388518)

QC-CALC Monitor

1. Problems Resolved in 5.1.18

This release contains important maintenance updates.

QC-CALC SPC

1. Problems Resolved in 5.1.18

- **General** - Updated control limit handling so values remain consistent across QC-CALC Real-Time and QC-CALC SPC. (385238)
- **Deliverables** - Fixed Deliverable scheduling so activated services are recognized when running scheduled deliverables. (386356)

QC-Gage

1. Problems Resolved in 5.1.18

- Clarified the server license limit message to better explain when the maximum number of users or sessions is reached. (388583)

QC-PLC

1. Problems Resolved in 5.1.18

This release contains important maintenance updates.

SPC Office Pro

1. Problems Resolved in 5.1.18

This release contains important maintenance updates.

QC-Mobile

1. Problems Resolved in 5.1.18

This release contains important maintenance updates.

QC-Collect

1. Problems Resolved in 5.1.18

This release contains important maintenance updates.

EDL

1. Problems Resolved in 5.1.18

This release contains important maintenance updates.

QC-Alert

1. Problems Resolved in 5.1.18

- Fixed QC-Alert so notifications display instead of an error. (389354)

PLS

1. Problems Resolved in 5.1.18

This release contains important maintenance updates.

DCS

1. Problems Resolved in 5.1.18

This release contains important maintenance updates.
